

Dear NAB, Go away. We the 1.7 million XM subscribers don't need you telling us who we can and can not listen too. Especially sense we are paying to listen to XM. I happen to like the fact that when I go into a town that I have never been in, I can listen to the station that I chose too. Whether I chose the News, music, comedy, or traffic. All without commercials. So take HR 4026 and put it on your stations so I don't have to hear about it anymore.

Sincerely,
Timothy May
